RE: NCMA SRW Installer Certificate Program – Level I

Dear Stu:

The National Concrete Masonry Association (NCMA) would like to thank you for your participation in the NCMA SRW Installer Certificate Program. The NCMA Level I SRW Installer Certificate Program was established to provide fundamental principles on construction and site practices that ensure the long-term success of this growing industry. Your participation is a direct reflection of your dedication to the success of your business and the industry, as a whole.

Therefore, NCMA is pleased to recognize you as an NCMA Level I Segmental Retaining Wall Installer. You demonstrated an acceptable level of understanding of the concepts presented during the Level I program by passing the written examination and submitting the required installation experience.

To help you market your credentials, NCMA is pleased to authorize your use of the certified NCMA SRW installer logo while your certification remains valid. Please visit our website (ncma.org/csawi) where you will be able to download the logo and find other useful resources.

NCMA is enclosing, for your use and display, a wall certificate that acknowledges your successful completion of the classroom seminar and written examination.

If you have any questions or require additional assistance, please do not hesitate to contact NCMA.

Respectfully,

Gabriela Mariscal, P.E.
Director of Geotechnical Systems

Enclosure: Certificate of Achievement: NCMA Level I Segmental Retaining Wall Installer
